1. Nature of Operations

Wescan Goldfields Inc. was originally incorporated as Shore Resources Inc. under the Business Corporations Act of Alberta on January 17, 2003 and by amended articles dated April 2, 2004 changed its name to Wescan Goldfields Inc. ("Wescan"). Substantially all of the Company's efforts are directed to the exploration and development of its mineral properties. The Company has not earned significant revenue and is therefore, considered to be in the development stage with respect to its current mineral property holdings.

2. General

These unaudited consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles and follow the same accounting principles and methods of application as the most recent annual audited consolidated financial statements. These unaudited consolidated financial statements should be read in conjunction with the Company's annual audited consolidated financial statements included in the 2007 annual report.

3. Changes in accounting policies

Effective January 1, 2008, the Company adopted the following accounting standards issued by the Canadian Institute of Chartered Accountants ("CICA"). These new standards have been adopted on a prospective basis with no restatement to prior period financial statements.

a) Financial instruments presentation and disclosure

On January 1, 2008, the Company adopted CICA handbook sections relating to financial instruments presentation and disclosure. These sections are intended to enhance the users' ability to evaluate the significance of financial instruments to an entity, related exposures and the management of these risks.

i) Financial assets

The Company has designated its cash and cash equivalents as held-for-trading, which are measured at fair value. Accounts receivable are classified as loans and receivables, which are measured at amortized cost. Due to the short-term maturity of accounts receivable, the carrying amount approximate fair value.

The Company has not entered into any hedging relationships and does not hold any other available-for-sale securities that would result in the recognition of other comprehensive income or loss.

ii) Financial liabilities

Accounts payable and accrued liabilities are classified as other financial liabilities, which are measured at amortized cost.

Due to the short term nature of accounts payable and accrued liabilities, respective carrying amounts approximate fair value.

iii) Management of financial risk

The Company's financial instruments are exposed to certain financial risks, including credit risk and liquidity risk.

Credit risk
Credit risk is the risk of an unexpected loss by the Company if a customer or third-party to a financial instrument fails to meet its contractual obligations.

Liquidity risk
Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach is to ensure that it will have sufficient liquidity to meet its obligations when due.

Accounts payable and accrued liabilities are due within the current operating period.

b) Capital disclosure

On January 1, 2008, the Company adopted CICA handbook sections relating to capital disclosure. This additional disclosure includes information regarding an entity's objectives, policies and processes for managing capital.

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders.

The Company considers the items included in shareholder's equity as capital. The Company manages the capital structure and makes adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares, acquire or dispose of assets or adjust the amount of cash and cash equivalents and investments.

In order to facilitate the management of its capital requirements, the Company prepares annual expenditure budgets that are updated as necessary. The annual budgets are approved by the Board of Directors.

In order to maximize ongoing exploration efforts, the Company does not pay out dividends. The Company's investment policy is to invest its cash in highly liquid short-term interest-bearing investments with an initial term to maturity of twelve months or less.

The Company expects its current capital resources will be sufficient to carry its exploration plans through its current operating period.

4. Mineral Properties

Mineral properties for the three-month period ended March 31, 2008 is made up of the following:

The Company has not yet determined whether any of its mineral properties contain economically recoverable reserves. Amounts capitalized as mineral properties represent costs incurred to date and cost of properties acquired, less write-downs and recoveries, and does not necessarily reflect present or future values.

a) Fork Lake/Jasper/Tamar Property

The Company holds a 100% interest in the Fork Lake/Jasper/Tamar property, consisting of certain mineral dispositions located approximately 150 kilometers northeast of La Ronge, Saskatchewan.

b) Mud Lake Property

In 2007, Wescan entered into an option agreement with Alto Ventures Ltd. (“Alto”). Under the terms of the agreement, Wescan has an exclusive and irrevocable option to acquire an undivided 50% interest in Alto’s Mud Lake property by making $600,000 in exploration expenditures and issuing 150,000 Wescan shares to Alto over a two year period. As at March 31, 2008, Wescan has incurred $346,677 of exploration expenditures and has issued 50,000 shares to Alto in accordance with the terms of the option agreement.

c) Munro Property

The Company holds a 51% interest in the Munro property, consisting of certain mineral dispositions located approximately 128 kilometers northeast of La Ronge, Saskatchewan.

d) Jojay Property

The Company holds a 100% interest in the Jojay property, consisting of certain mineral dispositions located approximately 150 kilometers northeast of La Ronge, Saskatchewan. The Company acquired the original 25% property interest in 2004 from its then parent company, Shore Gold Inc. On October 24, 2006, the Company acquired the remaining 75% property interest in a non-cash exchange for 3,500,000 shares valued at $1,365,000.

e) Limestone Lake/Hanson Lake Properties

The Company staked seven claims in the Limestone and Hanson Lake area located 85 kilometres west of Creighton, Saskatchewan during 2006. An additional claim was staked in 2007.

f) Athabasca Basin Properties

The Company acquired a 50% interest in six uranium properties in or around the Athabasca basin in northern Saskatchewan. A 50% interest in five additional claims in the same area was added during 2006. An additional claim was added in 2007.

5. **Share Capital**

Authorized

The authorized share capital of the Company consists of an unlimited number of common shares.

The common shares of the Company are entitled to dividends pro rated and when declared by the Board of Directors, to one vote per share at meetings of the shareholders and, upon dissolution or any other distribution of assets, to receive pro rated such assets of the Company as are distributable to the holders of the common shares.
